Meet the Scout Enterprise Family

SCALABLE. SECURE. RELIABLE. PROVEN.

Avtec Scout™ Enterprise dispatch consoles are available in four models that can be mixed and matched across your network, ensuring dispatchers are always equipped with the right consoles for their jobs. The Scout Enterprise suite scales from one console to hundreds, so you can count on a solution that grows with you over time, whether that means single-site, multi-site or mobile configurations. Scout consoles are designed with a customizable graphical user interface (GUI), allowing dispatchers to personalize their screens, including mirroring workflows and keypad functions from legacy systems to reduce training time and simplify system migration.

SCOUT EX
Up to 2,000 Channels

Avtec's Scout EX console is our most robust solution for managing conventional and trunked radio systems, telephony and broadband/LTE technologies. If you are a "power user" who manages hundreds of resources on a daily basis and need a secure, scalable and redundant solution, you can depend on Scout EX.

SCOUT E8
Up to 8 Channels

Avtec's Scout E8 console provides a cost-effective solution that is compatible with Scout EX, E4 and E1 consoles so you can add additional software licenses as needed. Scout E8 integrates with leading radio, telephony and broadband/LTE technologies.

SCOUT E4
Up to 4 Channels

Avtec's Scout E4 console gives your command center maximum value for a minimal investment. Like the entire Scout Enterprise family, Scout E4 dispatch consoles integrate with leading proprietary and standards-based radio, telephony and broadband/LTE technologies and are compatible with all Scout Enterprise products for easy expansion.

SCOUT E1
Up to 4 Channels

Avtec Scout E1 is a purpose-built hardware device that delivers a compact, reliable and affordable dispatching solution for up to four radio or LTE endpoints. Scout E1 can be transported for use anywhere on your network as a stand-alone device or connected to other Scout Enterprise products for easy scaling of your system.

DID YOU KNOW?

Six major U.S. airlines, 70% of North America's Class I railroads, 60 global utilities and dozens of Fortune 500 companies use the Scout Enterprise platform to manage their critical communications?
